## SECTION 1 – DEFINITIONS

**Asynchronous Transfer Mode:** ATM is a high bandwidth, low-delay connection-oriented, packet-like switching and multiplexing technique. Usable capacity is segmented into 53-byte fixed-size cells consistent of header and information fields, allocated to services on demand. The term “asynchronous” applies, as each cell is presented to the network on a “start-stop” basis.

**Commission:** The Arizona Corporation Commission.

**Company:** OnFiber Carrier Services, Inc., a Delaware corporation, which is the issuer of this tariff.

**Customer:** The person, firm, corporation or other entity which orders or uses service and, has agreed by signature or otherwise to honor the terms of the service herein, and is responsible for the payment of rates and charges for service to call customer locations and for compliance with tariff regulations.

**Individual Case Basis (“ICB”):** A service arrangement in which the regulations rates and charges are developed based on the specific circumstances of the Customer’s situation.

**Internet Protocol Transfer:** Transfer of information through the use of software that tracks the Internet address of nodes, routes outgoing messages, and recognizes incoming messages. Used in gateways to connect networks at OSI network Level 3 and above.

**LATA:** A local access and transport area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 8200192 for the provision and administration of communications services.

**OC-48:** Optical Carrier Speed of 2.488 Gbps.

**Private Line Transmission:** A dedicated nonswitchable link from one or more customer-specified locations to one or more customer-specified locations.

## SECTION 1 – DEFINITIONS (CONT'D)

**ORIGINAL**

**Packet Based Data Services:** Data services sent in packets through a network to some remote location. The data to be sent is assembled by the Packet Assembler/Disassembler in to individual packets of data, involving a process of segmentation or subdivision of larger sets of data as specified by the native protocol of the transmitting device.

**Service Commencement Date:** The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the Service Order, Service Contract or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance of service. The parties may mutually agree upon a substitute Service Commencement Date.

**Service Order:** The written request for interexchange services executed by the Customer and the Company in a format specified by the Company. The signing of a Service Order by the Customer and acceptance thereof by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date.

**Services:** The Company's telecommunications services offered on the Company's network.

**Virtual Voice Trunking:** Virtual communications channel between two points. Large bandwidth telephone channels between switching center that handle many simultaneous voice and data services.
